

Curriculum Vitae

Yoseph Marie Mengistu

Cybersecurity Engineer

Contact

Email: yosephmarie716@gmail.com
Phone: 0939607017 / 0902482425
Date of Birth: June 14, 1998
Addis Ababa, Ethiopia

Education

Bachelor of Science in Computer Engineering
Bahir Dar Institute of Technology,
Bahir Dar, Ethiopia
Graduated: 2022

Skills

Cybersecurity & Security Platforms

- FortiGate Firewall, FortiManager, FortiAnalyzer, FortiSIEM, FortiNAC, FortiWeb, FortiAuthenticator, FortiEMS (ZTNA), FortiADC, FortiSASE
- F5 Load Balancer & Web Application Firewall (WAF)
- Thales payShield 10K HSM, Thales Monitor, and Thales Manager
- Cisco Firepower Threat Defense (FTD), Firepower Management Center (FMC), and Web Security Appliance
- Security Monitoring, Log Management, Security Hardening, and Threat Mitigation

Security Operations & Vulnerability Management

- Vulnerability Assessment and Security Risk Analysis

Professional Summary

Accomplished Cybersecurity Engineer with over 3 years of experience delivering enterprise-grade cybersecurity, network security, and infrastructure solutions across banking, financial services, government, and enterprise sectors. Demonstrated expertise in implementing Fortinet security technologies, SIEM solutions, HSM platforms, firewall security, virtualization environments, and datacenter infrastructure. Successfully led and supported multiple large-scale security transformation, disaster recovery, and infrastructure modernization projects. Strong background in security operations, threat mitigation, security monitoring, system hardening, solution design, and post-deployment support. Committed to enhancing organizational security posture through innovative, scalable, and resilient security architectures.

Professional Experience

Cybersecurity Engineer

Symbol Technologies PLC, Addis Ababa, Ethiopia

September 2022 – Present

EthSwitch S.C. – Disaster Recovery (DR) Network & Security Infrastructure Upgrade

Cybersecurity Engineer | Nov 2025 – Present

- Implemented and supported FortiGate security infrastructure within the DR environment.
- Deployed and configured FortiEMS (ZTNA) for secure endpoint and remote access management.
- Configured and maintained FortiADC, FortiManager, and FortiAnalyzer solutions.
- Supported integration and operation of Arista SDN infrastructure.
- Performed troubleshooting, technical documentation, and post-deployment support.

Addis Bank S.C. – FortiSIEM Maintenance Project

Cybersecurity Engineer | Feb 2026 – Apr 2026

- Configured and maintained FortiSIEM Supervisor, Workers, Collectors, and Agents.
- Optimized security monitoring, event collection, and correlation.

- Kali Linux and Ethical Hacking Methodologies
- Security Incident Investigation and Troubleshooting
- Firewall Policy Design, Migration, and Optimization
- Security Compliance and Best Practice Implementation

Network, Datacenter & Infrastructure

- Enterprise Network Design, Implementation, and Migration
- Routing and Switching Technologies
- Network Load Balancing and High Availability Solutions
- Datacenter Infrastructure Deployment and Support
- Cisco Nexus, Cisco UCS, Fabric Interconnect, and Arista SDN
- VMware ESXi, vCenter, Virtualization, and Disaster Recovery Solutions
- NetApp Storage Administration and Support

Monitoring & Performance Management

- SolarWinds Network Performance Monitor (NPM)
- Network Configuration Manager (NCM)
- Network Traffic Analyzer (NTA)
- Server & Application Monitor (SAM)
- IP Address Manager (IPAM)

Professional & Consulting Skills

- Client Requirements Gathering and Analysis
- Solution Design and Security Architecture
- Technical Documentation and Reporting
- Customer Training and Knowledge Transfer
- Project Implementation and Coordination

- Conducted system health validation, troubleshooting, and performance tuning.
- Prepared technical documentation and delivered customer knowledge transfer.

Bahir Dar University – Private Cloud FlexPod Infrastructure Maintenance Project

Technical Engineer | Dec 2025 – May 2026

- Configured and supported Cisco Nexus switching infrastructure.
- Managed Cisco Fabric Interconnect and UCS Manager environments.
- Performed blade server deployment, administration, and troubleshooting.
- Supported NetApp clustered storage infrastructure.
- Managed VMware ESXi and vCenter virtualization platforms.
- Provided technical documentation, maintenance, and post-implementation support.

Premier Switch Solutions (PSS) – Main Data Center Network & Security Modernization

Network Security Specialist | Dec 2024 – Sep 2025

- Conducted customer requirement analysis and proposed enterprise security solutions.
- Designed and implemented FortiGate Firewall infrastructure.
- Deployed FortiManager, FortiAnalyzer, FortiSIEM, FortiNAC, and FortiWeb solutions.
- Performed system testing, migration, customer training, and documentation.
- Delivered post-implementation support and troubleshooting.

NIB Bank S.C. – HCI & Data Protection Solution

Support Engineer | Jan 2025 – Feb 2025

- Performed FortiGate Firewall configuration, migration, and optimization.
- Implemented firewall policy migration and security enhancements.
- Conducted security validation, testing, and operational support.

Abay Bank S.C. – Thales payShield 10K HSM Implementation

Cybersecurity Engineer | Jun 2024 – Apr 2025

- Installed and configured Thales payShield 10K Hardware Security Module (HSM).
- Deployed Thales Monitor and Thales Manager solutions.
- Configured Trusted Management Device (TMD) components.
- Conducted testing, documentation, and post-deployment support.
- Delivered technical knowledge transfer to customer teams.

- Presales Support and Technical Presentations
- Problem Solving and Root Cause Analysis
- Cross-functional Team Collaboration

Certifications

- Fortinet Certified Associate in Cybersecurity (NSE1 & NSE2)
- Fortinet Certified Fundamentals in Cybersecurity (NSE3)
- Fortinet Certified Professional Security Operation (NSE4 - FortiGate 7.2 Administrator)
- NSE5 - FortiSIEM 6.3 Administrator)
- Thales PayShield 10K HSM Professional Engineer

Languages

- English (Fluent),
- Amharic (Native)

Sidama Bank S.C. – Network Security Firewall Project

Cybersecurity Engineer | Feb 2024 – Jul 2024

- Conducted security assessments and requirements analysis.
- Designed and implemented FortiGate Firewall solutions.
- Configured security policies and access controls.
- Prepared technical documentation and provided customer support.

Ethiopian Agricultural Transformation Agency (ATA) – Disaster Recovery & Telepresence Project

Cybersecurity Engineer | Sep 2023 – Aug 2024

- Installed and configured Web Security Appliance (WSA).
- Performed security hardening, validation, and testing.
- Developed technical documentation and knowledge transfer materials.
- Supported disaster recovery readiness initiatives.

Awash Insurance Company S.C. – Network Monitoring & Infrastructure Project

Cybersecurity Engineer | Aug 2023 – Dec 2024

- Implemented SolarWinds monitoring and management solutions.
- Deployed NPM, NCM, NTA, SAM, and IPAM platforms.
- Improved network visibility, monitoring, and operational efficiency.
- Provided technical documentation and customer support.

Association of Ethiopian Microfinance Institutions (AEMFI) – Core Banking Data Center Hosting Project

Support Engineer | Jun 2023 – Sep 2024

- Configured and supported Cisco Firepower Threat Defense (FTD) and Firepower Management Center (FMC).
- Assisted with security infrastructure deployment and administration.
- Performed troubleshooting, maintenance, and operational support.
- Prepared implementation and support documentation.
